

Date: _____

Company Name: _____

Contact Name: _____

Coating Technical Specifications

Application/purpose: _____

Coating Width: _____ mm

Target coating thickness (Dry): _____ μm (Wet): _____ μm

Coating Fluid:

Type of fluid: _____

Type of solvent(s): _____

Viscosity: _____

Solid ratio: _____

Substrate:

Type of substrate: _____

Substrate thickness: _____ μm Substrate width: _____ mm

Dryer:

Required drying method: _____

Temperature: _____ $^{\circ}\text{C}$

Current line speed (if any): _____ m/min

Current coating method (if any): _____
