

Date: _____

Company Name: _____

Contact Name: _____

Coating Technical Specifications

Application/purpose: _____

Coating Width: _____

Target coating thickness (Dry): _____ (Wet): _____

Coating Fluid:

Type of fluid: _____

Type of solvent(s): _____

Viscosity: _____ Solid ratio: _____ wt%

Substrate:

Type of substrate: _____

Substrate thickness: _____ Substrate width: _____

Drying/ Curing Method(s):

Required drying or curing method(s):

For UV curing, what are the required wavelength, illuminance, totalized light intensity, and lamp type?

Temperature: _____

Drying/ curing duration: _____ minutes
